FOR IMMEDIATE RELEASE

Galaxy Technologies, Inc Named A Top Sage Software Business Partner For 2005

GALAXY TECHNOLOGIES, INC. Awarded President's Circle Designation for **Sixth** Year

Madison, WI – October 31, 2005 – GALAXY TECHNOLOGIES, INC. announced today that it has again achieved membership in the Sage Software President's Circle for 2005, a distinction bestowed annually upon Sage Software business partners generating the highest sales revenue during the previous fiscal year. A business partner selling the Abra Suite from Best Software, Galaxy Technologies, Inc., earned the #1 spot with the highest Abra sales revenues of all partners.

President's Circle membership is open to all Sage Software business partners in North America.

"President's Circle status doesn't come easy, and we're happy to bestow this prestigious recognition to partners like **GALAXY TECHNOLOGIES, INC.**, who have been top performers during the past fiscal year," said Taylor Macdonald, Sage Software executive vice president, channel and sales operations, mid-market division. "The hard work **GALAXY TECHNOLOGIES, INC.** put in has paid off in their tremendous sales achievements, and we look forward to continuing our mutually successful relationship with them throughout the new fiscal year."

"Galaxy Technologies is dedicated to exceeding customer satisfaction. We keep our customer returning to us for additional solutions with our product value and attention to service," stated Terri Donlin, Galaxy Technologies Director of Professional Services. "Our integration between TimeStar Enterprise and Sage Abra HRMS provides organizations of all sizes with a comprehensive solution."

Galaxy Technologies has been an Abra HRMS business partner since 1990 and has developed complementary time and attendance solutions allowing organizations to use Galaxy Technologies as a single source for all of their Labor Management Solutions. Galaxy Technologies customer centric consultative approach to sales focuses on client goal achievement and providing the appropriate product feature mix that allows customers to reach their unique business goals.

About GALAXY TECHNOLOGIES, INC.

Headquartered in Madison Wisconsin with offices and partners located throughout the United States, Galaxy has been developing and delivering innovative PC-based labor productivity tools since 1988. Galaxy's principle products include software solutions to allocate, track, analyze, and control labor resources. Galaxy also offers several different types of automated time collection devices. Galaxy is a distinctive organization with an extensive background in creating and developing a complete system solution in a variety of operational areas, with particular focus in time and attendance, human resources, payroll and data collection systems.
