

Delivering Innovative Timekeeping & Workforce Management Solutions Since 1988.

FOR IMMEDIATE RELEASE

Galaxy Technologies Inc. Introduces Encompass Enterprise-HRMS™ at the 10th Annual HR Technology Conference and Exhibition

Galaxy Technologies Encompass Enterprise-HRMS™ enables organizations to reach workforce management objectives, with a single-source, integrated human resources, benefits, time & attendance and payroll solution.

Chicago, IL (PRWEB) October 10, 2007 -- Navy Pier, Booth 728, - Encompass Enterprise-HRMS™ is a SQL Web-based solution that achieves what the name conveys - it "encompasses" the entire scope of organizations workforce management objectives, with a single-source, integrated technology solution. Historically, organizations have been left to themselves to piece together individual solutions on varied databases from a mix of vendors. Galaxy Technologies has taken best of breed solutions and integrated them into one. As a comprehensive solution, Encompass Enterprise-HRMS™ users have one resource for evaluation, implementation, training and ongoing support simplifying their workforce management.

"Encompass Enterprise-HRMS™ resolves the problems faced by organizations piecing together disparate solutions from several vendors," stated Carlos Gonzalez, Director of Sales & Marketing at Galaxy. "With SQL Web-based Encompass Enterprise-HRMS™, Galaxy clients will have the option of licensing the integrated solution or subscribing to it through Galaxy's 'Stress-Free Software as a Service' (SaaS) model. This flexibility will attract many organizations searching for a comprehensive workforce management solution without requiring significant capital investments."

"We evaluated many enterprise-class HR, payroll and benefits solutions on the market for the ideal balance of feature/functionality, ease of use and technological synergy with our web-native, SQL-based TimeStar Enterprise™ product," said Matt Petersen, Galaxy product manager. "The human resources, payroll, compliance and benefits are a true complement to our flagship time and attendance solution. With the launch of Encompass Enterprise-HRMS™, Galaxy can now offer a best-of-breed, integrated comprehensive solution to clients of all sizes."

About Galaxy Technologies

Headquartered in Madison Wisconsin with offices and partners located throughout North America, Galaxy has been developing and delivering innovative labor productivity tools since 1988. Galaxy's principle products include software solutions to track, allocate, analyze, and control labor resources. Galaxy also offers a comprehensive range of automated time collection devices for all employee populations. Galaxy is a distinctive organization with an extensive background in creating and developing a complete system solution in a variety of operational areas, with particular focus in time & attendance, human resources, payroll and data collection systems.
