

Delivering Innovative Timekeeping & Workforce Management Solutions Since 1988.

GALAXY TECHNOLOGIES ADDS SOFTWARE APPLICATION CONSULTANT TO ENTERPRISE PROJECT IMPLEMENTATION TEAM

MADISON, WI, DECEMBER 15, 2009 -- Galaxy Technologies Inc., (www.galaxy-inc.com) a leader in web-based workforce management systems, announces the addition of Lydia Zeh to its Enterprise Project Implementation Team in the role of Software Application Consultant.

Lydia brings over 5 years of healthcare software industry experience, product implementation and best practices in project management to the Galaxy team.

"Lydia's experience in managing large projects as a business analyst, project lead and implementer for a major software vendor brings tremendous value to the Galaxy Professional Services Team," said Terri Donlin, Director of Professional Services. "She has the necessary experience and a keen eye for details – essential in order to successfully complete large-scale, complex projects on time and under budget. We look forward to Lydia working with Galaxy customers and her project team members to make sure they get the most out of their workforce management solution."

Galaxy's business model and enterprise product are appealing for Zeh. "Galaxy provides consultative customer service while rolling out enterprise solutions," stated Zeh. "My objective for each project is to ensure the business objectives identified by the customer are met for each department. Galaxy's products empower employees, supervisors and management with the information needed to do their jobs better every day. With hundreds of years of workforce management best practices experience on the Galaxy team, I can confidently roll out projects knowing our product has the flexibility and scalability essential to meet individual customer's needs."

About Galaxy Technologies, Inc.
